

Government Draghi; "Fuori" Manfredi PD will explain? "Useful" for the Municipal Elections in Naples?

Mario Draghi has presented to the Head of State, Sergio Mattarella, the list of Ministers of the Government that will be sworn in tomorrow. A "defeat" for the PD, for the PD in particular is the non-reconfirmation of the Minister of University and Scientific Research, Gaetano Manfredi, former Rector of the University Federico II of Naples, strongly supported by local PD figures who would have "asked" explanations or reasons. The Professor will be "useful" for the candidacy for Mayor of Naples at the Elections of the next Spring, Covid permitting? We wish the virus would allow, we would like to say that we would be on the right path to exit the pandemic.
